## INDICATIONS

Projel-20 is a 20% benzocaine topical anesthetic.

It is used for temporary pain relief of oral mucosa due to minor irritation or injury of the mouth and gums or of pain associated with canker sores, dentures or orthodontic appliances.

For topical application to oral mucosa only.

## FEATURES & BENEFITS

- Economically priced — comparable to private label topicals
- 2.1oz wide-mouth jars reduce wasted product — allows for easy handling of product
- Dye-free flavoring with no preservatives or bitter aftertaste — better biocompatibility
- Gluten-free — can be used on patients allergic to gluten
- Variety of flavors — Cherry, Mint, Bubblegum and Piña Colada
